Despite the challenges posed by the COVID-19 pandemic, Clean Energy NH had a very successful year in terms of our work to promote clean energy and technologies. We successfully hosted the first ever entirely virtual Local Energy Solutions Conference featuring the globally recognized keynote speaker Katharine Wilkinson and Senator Shaheen, helped launch the Community Power Coalition of New Hampshire, and worked with our neighboring states to release a new study highlighting the benefits of behind-the-meter solar for all New England ratepayers. We hosted dozens of webinars for our members and supporters with all new content, released a Clean Tech Market Update, and grew our municipal members to 31. In addition, we launched our first major fundraising campaign and were overwhelmed by the positive support for our mission and ongoing work. Through it all, we remained a steady presence of support for our members and strove to maintain the forward momentum at the state house and the PUC. Thank you for standing by us and cheers to a brighter 2021!

MADELEINE MINEAU
EXECUTIVE DIRECTOR
"We were overwhelmed by the monumental outpouring of financial support for our mission; it invigorated our staff and fueled our dedication to continue expanding our work"

Our fundraising efforts raised over $82,000 in donations in 2020. Special thanks to our lead donors and members that provided matching challenge gifts.
**Shelburne’s** new 16.8kw solar array on the Town Hall is expected to offset 100% of the building’s energy needs.

**north country highlights**

*Special thanks to support from the Neil & Louise Tillotson Fund for supporting Clean Energy NH’s North Country program, working to support communities on clean energy & energy efficiency projects*

**Gorham** received a USDA Community Facilities grant to convert lighting to LEDs at local schools.

Energy audits completed & insulation installed at **Randolph Town Hall, Stratford Library & Fire Station**.

**LED lighting upgrades completed at town buildings in Shelburne & Pittsburg**.
CENH played a major role in the development of the 2021-2023 Statewide Energy Efficiency Plan and promoted innovative rates & opportunities for clean technologies in rate cases for Eversource & Liberty Utilities. CENH also participated in dockets focused on electric vehicle Time-of-Use rates & a statewide utility data platform.

Emission Commission

CENH participated in all meetings of the ad-hoc NH Emission Commission and advocated for a statewide emissions reduction goal. CENH also provided comments in the Commission's final report.

Clean Energy Fund

CENH assumed a leadership position in negotiations with other stakeholders for the use of the state's $5 million Clean Energy Fund, advocating for funding for the state's rebate programs and a new energy storage program.

Kelly Buchanan, Director of Regulatory Affairs

900 Rules Update

CENH worked with our member renewable energy developers and PUC staff on updates to the group net metering rules.

DES Alteration of Terrain

CENH partnered with member solar developers & NHDES staff to host a forum on Alteration of Terrain rules.

Renewable Energy Fund

CENH led an investigation into the administration and use of the REF to understand delays in funding and recommend solutions.
In addition to coordinating the Drive Electric NH initiative, CENH staff presented to the SB517 Senate Commission on EV Infrastructure, submitted comments to encourage Electrify America to invest in North Country fast charging, and produced digital content for National Drive Electric Week including daily webinars.

CENH staff served on the newly created Senate Commission to Study Offshore Wind & Port Infrastructure and on the New England for Offshore Wind Regional Coalition. CENH also hosted two webinars on offshore wind topics.

CENH partnered with Renewable Energy Vermont and Vote Solar to fund a new report from Synapse Energy Economics. The report found from 2014-2019, small scale behind-the-meter solar produced wholesale energy market benefits of $1.1 billion; NH ratepayers saved $83 million from local solar over the same time period. The report can be viewed at www.cleanenergynh.org.
Congratulations to **Assistant Mayor of Lebanon Clifton Below** for winning CENH’s 2020 Clean Energy Champion of the Year Award! Previous winners include Charlie Niebling, Harold Turner, and Tony Giunta.

Congratulations to **Resilient Buildings Group**, based in Concord, for winning CENH’s 2020 Clean Tech Business of the Year Award! Previous winners include Yankee Thermal Imaging, Standard Power, and Affinity LED.

CENH member **EV Launchpad** started a pilot project with their new charging technology "Charge Depot" with XL fleet.

CENH member **NextEra Energy Resources** received approval from the Site Evaluation Committee to build the state’s largest solar array (30MW) in Fitzwilliam. This will be NH’s first utility-scale solar array.

CENH members **Froling Energy** and **EEI** partnered on the installation of a biomass wood chip heating system at Maplewood Nursing Home in Cheshire County and an Energy Performance Contract and biomass wood chip boiler installation at John Stark High School in Weare.

CENH was thrilled to host world-renowned climate author, strategist, teacher, and vice president of Project Drawdown Dr. Katharine Wilkinson as the keynote speaker of the virtual LES Conference (photo left).

CENH organized a comprehensive educational tour of Eversource's Control Room for the **NH Young Professionals in Energy**. The tour was also open to UNH students studying energy.
2020 income & resource allocation

- Grants: 66.7%
- Donations: 13.8%
- Membership: 11.7%
- Events: 7.8%
- Regulatory: 18%
- Drive Electric NH: 8%
- Education & Tech. Assistance: 12%
- Admin & Development: 12%
- Policy Advocacy: 10%
- Industry Development: 7%
- North Country Program: 15%

Total Revenue: $607,908
Total Expenses: $552,085
Carry-Forward: $56,968

*Charts are provided for illustrative purposes. Detailed financial report available upon request. 2020 carry-over funds will be used to support the long-term goal of the creation of an endowment.*
CENH actively seeks support and participation from towns and cities across the state - those marked with an asterisk (*) are new members from 2020
